

Spezialvorlesungen UZH *Wahlpflichtbereich 3 Biomedizin* FS 2027 (provisorisch)

Montag 8-10 Uhr

BME 335: Regenerative Medicine and Applied Tissue Engineering (3 ECTS)

BIO 212: Language evolution. Insights from animal communication (3 ECTS)

Montag 9-10 Uhr

BME 320: Forensic Genetics (1 ECTS)

Montag 10-12/13 Uhr

BIO 216: Primate origins of human sociality, cognition, and mind (3 ECTS)

BIO 347: Concepts in Developmental Cell Biology: From Cells to Animals: (3 ECTS)

BIO 394: Interdisciplinary Research Methods in Computational Biology (4 ECTS)

BME 333: From Bench to Bedside – Examples from Immunology and Beyond (3 ECTS)

Montag 12-14 Uhr

BIO 218: Ethische Aspekte der biologischen Forschung am Menschen (3 ECTS)

Montag 13-15 Uhr (und Di/Mi 12-13)

CHE 324: Chemistry of Metals in Life Processes (4 ECTS)

Montag 14-16 Uhr

BIO 388: Human Genetics (3 ECTS)

BIO 433: Biology of Cancer Treatment: Old and Novel Therapeutic Strategies (3 ECTS)

BIO 402: Philosophy of Science with a Focus on Biology (3 ECTS)

Montag 15-17 Uhr

BIO 368: Scientific Information Literacy (3 ECTS)

BME 318: Clinical Epidemiology and Quantitative Research in Health Care (2 ECTS)

BME 389: Clinical Neuroscience (3 ECTS)

Montag 17-19 Uhr

BIO 630: Ethics in Scientific Practice (3 ECTS)

Dienstag 8-10 Uhr

BME 339: Biomedical Informatics (3 ECTS)

Dienstag 9-10 Uhr

BIO 404: Science fiction for Biologists (1 ECTS)

Dienstag 10-12 Uhr

BIO 403: Superbugs: The global crises of antimicrobial resistance in human, animals and the environment (3 ECTS)

BME 327: Current Approaches in Single Cell Analysis (2 ECTS)

BCH 252: RNA and Proteins: Post-Transcriptional Regulation of Gene Expression (3 ECTS)
