

Recommendations on the format of the Master's thesis

Cover page

The cover page typically includes the title, author, supervisor, institute and month/year of completion as outlined on the next page. A certain degree of creative freedom is possible and images can be shown on the cover.

Print

Please print preferentially double sided. If you use recycled paper, make sure it doesn't impair the readability of the thesis.

Spacing

We recommend using a line spacing of 1.5 and a font size 11 to 12. Please avoid the font type *Comic Sans*.

Binding

Spiral binding is preferred over glued, as it is more robust and durable.

Paraphrasing and plagiarism

Paraphrased statements must be properly referenced.

Summary

A one-page summary, also called abstract, should be included at the beginning of the thesis.

Statement of Authorship regarding plagiarism and a proclamation of independent work

The following statement of authorship is required and must be printed as the last page of the thesis. Please sign this statement.

Statement of Authorship

All passages quoted from publications or paraphrased from these sources are indicated as such, i.e. cited and/or attributed. This thesis was not submitted in any form for another degree or diploma at any university or other institution of tertiary education.
